

Hai Wang is an Associate Professor of Aerospace and Mechanical Engineering at the University of Southern California. He currently serves as a member of the editorial board of Combustion and Flame. He is the recipient of the NSF CAREER award. His current research interests include combustion chemistry and combustion-generated air pollutants, transport properties of nanomaterials, nano-photocatalyst enabled-photovoltaic technology, semi-conductor metal-oxide chemical sensors, heterogeneous chemical reaction kinetics in the atmosphere, and multi-scaling modeling of microbial fuel cells.
